

D-10 Defoamer

D-10 is a highly concentrated non-silicone defoaming agent formulated specifically to break foam build-up formed by organic surfactant systems and / or plastic media during mass finishing operations.

PHYSICAL PROPERTIES

Appearance	Clear Liquid
pH @ 1% solution	7.0
Odor	Mild
Foaming Action	None
Solubility in Water	Complete
Rinsing Action	Excellent
Metal Safety	All Metals
Flash Point	None
Specific Gravity	1.1
Stability	Stable

Refer to our Material Safety Data Sheet for additional information.

USAGE AND DILUTION RECOMMENDATIONS

For reducing foam build up in mass finishing operations use 1 to 2 ounces of D-10 per gallon of water.

HANDLING AND STORAGE

This product does not pose any fire hazards. Use good industrial hygiene practices. This product may be drying to skin, therefore we recommend wearing rubber gloves. In case of skin contact, wash with soap and water, removing contaminated clothing and shoes. Keep product containers tightly closed when not in use. Store in the original container between 45° and 85F. When stored as stated above, shelf life is a minimum of 2 years.

Progress Chemical guarantees its products will perform to your satisfaction when used in accordance to our recommendations. We back this guarantee with over 65 years experience. Our quality management system has been certified to ISO 9001 Quality Standards.
